OBJECTIVE

Aspiring Full Stack Developer with hands-on experience building MERN stack applications using React.js, Node.js, Express.js, and MongoDB. Looking to contribute to scalable web applications while continuously improving backend development and problem-solving skills.

EDUCATION

Ramachandra College of Engineering 2022-2026
Electronics and Communication Engineering - 70%

Sri Chaitanya Junior College 2020-2022
MPC, Andhra Pradesh Board of Intermediate Education - 71%

Z.P.P. High School 2019-2020
Andhra Pradesh Board of Secondary Education - 93%

SKILLS

Programming Languages: Python, JavaScript

Frontend: HTML, CSS, React.js

Backend: Express.js, Node.js, RESTful APIs, WebSockets

Databases: MySQL, MongoDB

Fundamentals: OOP

Tools & Platforms: Git, GitHub, Visual Studio Code, Postman

PROJECTS

MediDesk - Healthcare Management Platform

GitHub: [Link](#)

- Developed a full-stack healthcare management application using React.js, Node.js, Express.js, and MongoDB.
- Implemented appointment booking and management features, enabling patients to schedule and track healthcare services.
- Built user-friendly interfaces with React.js to ensure a seamless experience across desktop and mobile devices.
- Designed and integrated RESTful APIs for handling appointments, patient data, and healthcare service requests.
- Utilized MongoDB for efficient storage and retrieval of application data, ensuring reliable performance.

Quick Buy – E-commerce Web Application

GitHub: [Link](#)

- Developed a full-stack e-commerce application using React.js, Node.js, Express.js, and MySQL.
- Implemented user authentication, product browsing, shopping cart, and order management functionalities.
- Built RESTful APIs for product catalog management, cart operations, and order processing.
- Designed responsive and reusable React components to deliver a seamless user experience across devices.
- Utilized SQL databases for efficient storage and retrieval of user, product, and transaction data.
